**Subject:** IRIS Program Update: May 2016

## Now Available:

### EPA Posts Documents for June IRIS Public Science Meeting

**Notice:** EPA's Integrated Risk Information System (IRIS) Program has released the draft of the IRIS Toxicological Review of tert-Butyl Alcohol (tert-Butanol), which will be discussed during the **June 29-30, 2016** IRIS Public Science Meeting in Arlington, Virginia. The purpose of the meeting is to give the public the opportunity to provide input and participate in discussions on the draft IRIS assessment of tert-Butanol as well as on the potential approaches to estimate the risk of skin cancer following dermal exposure to benzo[a]pyrene (BaP). Meeting registration is now open.

For more information about this assessment and the meeting, visit the [June Public Science Meeting website](#).

## Other Recent Announcements:

### IRIS Program Job Announcement – Statistician Position Available

**Notice:** EPA's National Center for Environmental Assessment (NCEA) is seeking a qualified **Mathematical Statistician** with the relevant combination of academic and professional experience to join the Integrated Risk Information System (IRIS) Program. The IRIS Program supports EPA's overall mission to protect human health and the environment by identifying and characterizing the health hazards of chemicals found in the environment. The IRIS Program develops state-of-the-science health assessments that are used by EPA's program and regional offices, as well as organizations at the state, local, tribal, and international levels, to inform decision-making. For more information, including information on the specific duties and required qualifications, [click here](#) or visit [USAJobs](#) and search the job announcement number: RTP-ORD-DE-2016-0044.
